

Safety

Read fitting instructions before use.

Be aware fitting luggage may affect the handling characteristics of the motorcycle.

Do not exceed the UK speed limits.

Regularly check for wear or damage.

Pay particular attention to bungee cords which must be replaced if showing any sign of weakness.

Take great care when using bungee cords as they can spring back and cause injury.

Maximum load weight per bag is 5kg.

Load evenly with heavy items at the bottom.

Protect the luggage from sharp items.

Where back and shoulder straps are supplied they are for OFF bike use. Do not wear the luggage as a backpack when riding a bike.

Important warning

It is the customers responsibility to ascertain the suitability of this product to their motorcycle. If improperly used or fitted this product can cause damage to your vehicle and in the event of an accident injury or death to the rider or riders. The manufacturer cannot accept any liability for damage arising from misuse or failure to fit or use correctly.

GETAWAY

Guarantee

All articles are manufactured with every possible care. The first buyer has a complete guarantee against faults in finishing components or materials not due to natural wear or intensive use.

If any manufacturing faults should be discovered, you may claim under our guarantee, by returning the item to us together with the purchase note, via the dealer. The article will be either replaced or repaired, depending on the type of fault. This does not affect your statutory rights.

Expanding Panniers

IMPORTANT

Read fitting instructions before use.

Features

Carry handles.

Shoulder strap.

Rubberised backing panels.

Expanding

Heat resistant material on base of bag.

External pockets. Rain covers.

Contents

One pair of Panniers.

Shoulder straps.

Rain covers.

Adjustable straps

Semi-rigid support panels

Loading and correct usage

Do not overload the bags. Recommended maximum load weight per bag is 5kg. Use the bungee straps to support heavy loads and prevent sagging. Protect the luggage from sharp items and load evenly with heavy items at the bottom. Take care not to affect the steering or safe handling of the motorcycle.

Rain covers are included however in adverse weather conditions contents should be wrapped in plastic bags to provide additional protection.

Fitting instructions

Please keep with luggage.

To avoid damage to paintwork ensure the bike and luggage surfaces are clean and free from abrasives.

The semi-rigid support panels provided should be fitted to maintain the bags shape and prevent sagging near the exhausts.

Connect the panniers together using the centre strap on each bag and mount under motorcycle seat. Join the four end straps together over the top of the seat. Straps must be connected by an overlap of at least 15cm and adjusted so the panniers are positioned firmly against the sides of the bike.

The 4 adjustable straps must now be connected to the motorcycles dedicated luggage hooks and tensioned to achieve a stable and secure fit and preventing the panniers from moving. Bungee cords may be used for additional security but must be attached to appropriate parts of the motorcycle.

Ensure the luggage is clear of moving parts and sources of heat such as engine and exhausts.

Before commencing a journey check the luggage is securely fitted.

Please read the important safety information before using this luggage.

Caution

This luggage has heat resistant material used in the base of the bags but care must be taken to prevent them touching or getting too close to hot exhausts or engine parts.

Care for your luggage

Sponge clean with warm water and a mild detergent.

Do not machine wash or tumble dry.

Store in a dry place.
